

2007 IIHF World Championship

R U S S I A • M O S C O W • M Y T I S C H I

In his official address Rene Fasel, the IIHF President, expressed his thanks and highly estimated the organization of the last 2007 IIHF World Championship in Mytisch:

“*As the championship in Mytisch is over, I would like to express thanks to you and stress that cooperation with you was a great pleasure for me. In spite of the fact that you were expecting more of the Russian team, that took the 3d place, you will agree that the championship itself became an outstanding event. Those 3 weeks that we spent together were extremely intense. We have easily solved all the problems. We have overcome all the challenges we had to face. It is essentially that one cannot foresee and for say everything in sport. But anyway in terms of organization and managing the world championship your team became the winner and deserves the highest praise. The team that was created by you, was a brilliant ambassador of the Russian Hockey. In the IIHF we all agree that Hockey Family needs exactly this kind of an ambassador. And I dearly thank you, that you took this responsibility.*

Thank you that you presented us with this well-organized World Championship ”
